PROFILE

I am a React native + iOS developer who started out in dec 2016 with and experience of **6 years 5 months**. I have **2 years of experience in react native** and remaining term on iOS (in swift language) and backend. I have explored and tinkered with many technologies like blockchain and neural networks.

Looking for a mid/senior developer role or tech lead or CTO

Have experience of training and mentoring juniors.

Open to flutter and frontend roles as well.

CORPORATE EXPERIENCE

REACT NATIVE, DELOITTE CONSULTANCY, MUMBAI – 2021 - JULY 2023

- Gained expertise in javascript, typescript, react, hooks and redux.
- Experience with architecting and developing **Network layer**, also with creating API contracts, co-ordinating with backend team for successful implementation
- Experience with using ES6 syntax and functional components

IOS DEVELOPER, DELOITTE CONSULTANCY, MUMBAI – 2018 - 2021

- Worked closely with client and designers to understand requirements.
- Experience with multithreading and performance improvements in iOS.
- Experience in debugging and fixing crashes.

SWIFT DEVELOPER, INFOSYS, BANGALORE – 2016-2018

- Received training on python, databases and iOS
- Worked on developing and maintaining **sever side swift** on backend and learned about CI/CD and firewalls.
- Gained understanding on REST Web services, how to accept incoming requests, how to respond to various type of incoming requests

PERSONAL PROJECTS

- Experience with designing, programming and deploying my portfolio website on AWS EC2 instance
- Experience with deploying personal projects on play store and app store.
- During initial years of my career worked on couple of **unity 3D android games,** they were live on google play store for while.
- I help maintain a website for an NGO which uses a no code platform.
